This Student Solutions Manual contains solutions to the odd-numbered exercises in the text Introduction to Differential Equations with Dynamical Systems by Stephen L. Campbell and Richard Haberman. To master the concepts in a mathematics text the students must solve problems which sometimes may be challenging.

Solutions Manual Introduction Differential

solutions, as persisted in the first edition for many years. We distinguish between "student solutions" and "instructor only" for the convenience of both. Students can work homeworks then check their own answers. Instructors can assign homeworks with some confidence that students will do their own work instead of looking up the answer in the manual.
