The SUBARU BOXER engine, which powers every vehicle in the Subaru line, is renowned for its superior balance, smoothness and power delivery — and has been for 50 years now. This horizontally opposed design boasts a low centre of gravity that helps create more balanced handling, flatter cornering and greater stability on every type of road.

Performance:The Subaru Boxer Engine - Subaru's Technology

Air-water intercooler efficiencies can be sky-high with all the access to free 70-degree water. Since I'm looking for 200 hp from a 2.7L engine, an intercooled turbo would be a nice way of doing that without having to spin the engine to 6500 rpm. I have very specific space and height reasons for wanting a subaru engine in a boat which is why I ...

Marinize a Subaru? | Boat Design Net

Re: Why not use a boxer engine in a boat? By "Boxer engine" I presume we are talking a Subaru engine. First, they are mostly aluminum, which doesn't last as long in an inboard situation. That engine may not have enough torque to do well (I really have no idea about that - just a guess). As has been said, marine conversion parts aren't available.
