Split Wall Mounted Air Conditioner

A ductless heat pump or air conditioner typically consists of a wall-mounted indoor unit combined with an outside compressor. It's most often used in a situation where a window AC unit or baseboard heating would be considered, such as a new addition to a house.

The Pros and Cons of a Ductless Heating and Cooling System ...

Wall-mounted air conditioning units are simple to install and can be placed subtly, high up on a wall. This saves space and prevents a large appliance from blocking your view of outside. Plus, if you want to conserve a little energy, you will be able to open your window for some fresh outside air.
