SUNSTAR KM-380 USER MANUAL Pdf Download.

I have a large collection of Star pistols including many examples of the S, SS, Super and SI. Although they are great pistols and known for reliability a more modern release such as a Sig P 938 (9mm) or P 238 (380) which is in essence a clone of the Star DK--S series pistols would be my choice for carry purposes.

Kimber turned its sights on the .380 concept with the Micro CDP and an entire Micro .380 line. Looking like a highly refined Colt Mustang (exactly what it is, just like the Sig Sauer P238 Series) with a standard capacity of 6 +1 the .380 ACP Micro series left Kimber with one remaining challenge and in 2016 Kimber took the next logical step by introducing a slightly larger Micro variation ...

While they appear to be miniature 1911s the Star design varies considerably in detail. These compact, all steel locked-breech pistols were chambered in .32 ACP (7.65 mm) and .380 ACP (9 mm Browning Short or 9 mm Corto). They are scaled down versions of the full-sized Star pistols, complete with a short-recoil locked-breech.

The Star Model BM is a single-action semi-automatic pistol that fires the 9 mm Para pistol cartridge. It was produced by Star Bonifacio Echeverria, S.A. in Spain. Although its external appearance resembles the classic M1911, its design is different in several respects. For example, the Star does not have the 1911's grip safety.

Description: Nice looking, accurate and reliable shooting little Star, SM Super model .380, 8+1 (or is it 7+1?) shot semi auto pistol. This is a 1960s-70s pistol that is in very good condition. Functions fine except when cocked and locked, if you pull the trigger the hammer seems to decock to the half-cock position, BUT ONLY when it is cocked and locked and you pull the trigger, otherwise it ...
