I had the Storm Responder 5500 with the same result: the engine blew up.. This model seems to consume oil faster than normal, and is poorly lubricated. The oil MUST be checked every 8 hours or sooner. It is not suitable to use during a storm or other emergency where you may need it for more than 8 hours of run time.

I have a Briggs and Stratton Storm Responder 5500 that's started well the couple of times I've used it, but let it sit too long without running it, and now it won't start. I think I need to clean out the carburetor, but I can't figure out how to get the black plastic protective shield that sits over that part of the engine off.

### **Briggs and Stratton Storm Responder 5500 carburetor**

Briggs and Stratton Storm Responder 5500 watt generator, neighbor gave it to me because it wouldn't start. It's got a Model 216112 B&S engine. I know I have spark, I have cleaned the carburetor 3 times (it wasn't really that dirty to begin with) and replaced the main o-ring that goes around the whole top of the carb (it was kind of peeling up ...
