At my uni, they use Hartle for the undergraduate GR course which sucks because like you I hate the "physics - first" approach taken in Hartle. The partial solutions in Foster was definitely a nice touch since no other GR book I know (excluding the Straumann one you recently showed me) actually has a solutions manual or even partial solutions ...

Gravity might thus seem to be negligible. But three other facts explain why it is important and where it is important. First, gravity is a universal force coupling to all forms of mass and energy. Second, gravity is a long-range force in contrast to the weak and strong forces which are characterized by nucleus-size ranges and below.
