HP STREAM USER MANUAL Pdf Download.

Stream processing is a computer programming paradigm, equivalent to dataflow programming, event stream processing, and reactive programming, that allows some applications to more easily exploit a limited form of parallel processing. Such applications can use multiple computational units, such as the floating point unit on a graphics processing unit or field-programmable gate arrays (FPGAs ...

Stream processing - Wikipedia

Prior to the Ryzen Threadripper 2990WX, the desktop processor with the most cores was the Intel

Core i9-7980XE, with 18 cores. With the release of the 32-core Ryzen Threadripper 2990WX, the most cores you can get on a desktop processor is now 32 cores. RP2-2; Testing by AMD Performance labs as of 6/26/2018 on the following system.
