Wang, K. T. Kim and L. Zhang in my finite element research group at M.I.T. I helped in giving guidance. We give solutions to the exercises that do not require the use of a computer program. However, to indicate how the exercises in which a finite element program is to be used might be solved, we also include the solutions to three such exercises.

A finite element is a small body or unit interconnected to other units to model a larger structure or system. 1.2. Discretization means dividing the body (system) into an equivalent system of finite elements with associated nodes and elements. 1.3. The modern development of the finite element method began in 1941 with the work of
