Charter schools in the United States are primary or secondary education institutions that do not charge fees to pupils who take state-mandated exams. These charter schools are subject to fewer rules, regulations, and statutes than traditional state schools, but receive less public funding than public schools, typically a fixed amount per pupil. There are both non-profit and for-profit charter ...

Finance is a field that is concerned with the allocation of assets and liabilities over space and time, often under conditions of risk or uncertainty. Finance can also be defined as the art of money management. Participants in the market aim to price assets based on their risk level, fundamental value, and their expected rate of return. Finance can be split into three sub-categories: public ...
