Great flash for the money. Auto-tryster settings are sufficient for most work. GN of 120 makes it as powerful as many of the more expensive, TTL flashes. As far as I'm concerned, the Sunpak Auto 383 Super is the best deal out there for a new, powerful, and flexible off camera flash with manual settings. If you want to go used, you might be better off getting a flash with a zoom mode and more settings (like an SB-24 or SB-26) but for a new flash, the Sunpak can't be beat.

Rated 5 out of 5 by kobold from Best light/\$\$\$ ratio The Sunpak 622 Super Pro has a higher guide number than the AB800. I guess the Metz 76 MZ-5 is the only 'potato masher' w/ more light output, but for 4-5x the price, so this amazing flash is absolutely the best value.

The bad news is, it's not an E-TTL flash unit. The good news is, it's not an E-TTL flash unit.
