Today's challenging packaging machine design environment requires manufacturers to update and automate their product development processes. Upgrading from methods that rely on non-integrated, point solutions in favor of concurrent, fully-integrated 3D design and manufacturing approaches decreases time to market and increases quality.

Industrial Equipment - Packaging Machinery | SOLIDWORKS

This thesis presents a novel approach to conceptual design as part of a rapid machine design initiative. Solid model CAD systems and advanced engineering tools are used during the early design phase to generate realistic concepts of designs for manufacturing equipment. Concept evaluation is done very effectively through use of advanced analysis

Principles of Rapid Machine Design - University of Utah

Whether you own a factory in Shanghai where workers emboss logos on caps or a t-shirt shop in New York in need of a fabric embossing machine, we have the heat transfer solutions for your business. As an added bonus, our machines can be customized with any company logo and color scheme.

Embossing Machines « Practix Manufacturing

He creates and implements Solid Design Solution's business strategies and processes. He provides leadership for our internal teams and external stakeholders including clients, business partners and suppliers.
