In a new era of corporate training, frequently terms like gamification and game-based learning are used as synonyms. While both enhance motivation and engagement, only the game-based learning aspect is linked to the cognitive-improvement area of the course where the learning and development happens; gamification simply refers to the techniques used to increase motivation, make training fun ...

Wargames are analytic games that simulate aspects of warfare at the tactical, operational, or strategic level. They are used to examine warfighting concepts, train and educate commanders and analysts, explore scenarios, and assess how force planning and posture choices affect campaign outcomes. RAND has developed and can execute various types of wargames, including scenario exercises, tabletop ...
