Structural Engineering Reference Manual: The Structural Engineering Reference Manual is the most comprehensive reference and study guide available for engineers preparing for the NCEES 16-hour Structural Engineering (SE) exam. It provides a comprehensive review of structural analysis and design methods related to vertical and lateral forces ...

Structural Books | Civil Engineering Academy

Structural engineering is a sub-discipline of civil engineering in which structural engineers are trained to design the 'bones and muscles' that create the form and shape of man made structures. Structural engineers need to understand and calculate the stability, strength and rigidity of built structures for buildings and nonbuilding structures. The structural designs are integrated with those ...
